## A CHANGE IN BUSINESS METHODS.

We have decided to make a change in our business methods and on and after March 15th we will do business on a strictly cash basis.

## No Goods Will be Charged to Anyone!

We believe you and every other thinking man will agree with us that this is the only proper method of doing business. It is an undisputed, tried fact that if every man paid cash for what he bought he would be better off at the end of every year. He would come nearer buying what he needed and what he wanted, besides the saving in price.

Times are changing, seasons are changing, methods of doing business are changing, methods of farming are changing, methods of feeding and caring for stock are changing, prices of all merchandise, farm products and live stock are changing, expenses of living are changing, expenses of doing business and farming are changing, and every man has got to adapt himself to these conditions if he expects to succeed. We make these suggestions, which you will realize are facts, and which we trust will enable you to look this matter square in the face, and we are sure if you do you will say that we are doing exactly the right thing, and that we can count on you, as a fast friend of the Murphy-Mills Store for years to come.

The Murphy-Mills Store is always looking forward for the best interests of its customers and while it is an established fact in the minds of our trade and the thinking people of Saline County that the Murphy-Mills Store has always given their trade better values for the money spent with them than any other Clothing Store in Saline County. We are adopting the cash system because it will enable us to give you even greater values than we have ever done before.

We are making this change and adopting the cash system for the reason that we believe that it will be to the best interest of the Murphy-Mills Store and we know positively that our patrons will receive as much or more benefit, from the fact, that it will enable us to give you better values and better service. We will not have to figure the loss of bad accounts and long time accounts in marketing our goods. In other words, every customer will buy his goods under the cash system at less than we or any other firm can sell on credit.

We want you to trade with us and we will prove to your satisfaction that we will make it to your interest to do so. And with your co-operation and good will we assure you that we will make the Murphy-Mills Store the best cash, one-price clothing store in central Missouri to buy your Clothing, Shoes, Hats and Furnishing Goods.
